Pavon Limited

# Company Overview

Pavon Limited (“Pavon”) is an energy solutions and technical consultancy company registered under Kenyan Law and have been in operation for more than 10+ years. The company provides specialized services across renewable and non-renewable energy sectors, with a strong focus on petroleum, LPG, compressed gases, industrial gases, medical gases, petroleum infrastructure, logistics, operations, project development, and technical advisory services.

The company brings together a multidisciplinary team of experienced engineers, architects, project managers, energy consultants, health & safety, and operations specialists with deep experience in the regional oil, gas, and energy sectors. Pavon Limited supports clients from early-stage project conceptualization through feasibility, design, procurement support, construction supervision, commissioning, operational readiness, safety assurance, and performance improvement.

With a strong track record across Kenya, Uganda, Rwanda, Tanzania, South Sudan and the Democratic Republic of Congo, Pavon Limited is positioned as a reliable partner for institutions, energy companies, industrial clients, public sector agencies, and development-focused enterprises seeking practical, safe, technically sound, commercially viable energy infrastructure solutions.

# Corporate Information

Item	Details
Company Name	Pavon Limited
Brand Positioning	Energy Solutions
Date of Registration	23rd October 2013
Email	info@pavon.co.ke
Website	www.pavon.co.ke
Postal Address	P.O. Box 35336 - 00200, Nairobi, Kenya
Telephone	+254 202 527 764
Mobile	+254 722 713 426 / +254 736 713 426
Bankers	Equity Bank Limited, Westlands Branch, Nairobi Co-op Bank Limited, Aga Khan Walk Branch, Nairobi

## Vision, Mission & Value Proposition

### Vision Statement

To become a leading regional provider of integrated energy infrastructure solutions, delivering safe, efficient, sustainable, and commercially viable projects across petroleum, gas, industrial energy, and related infrastructure sectors.

### Mission Statement

To provide high-quality technical, engineering, project management, logistics, operational, and energy consultancy services that enable clients to design, develop, operate, and optimize energy facilities safely, efficiently, and profitably.

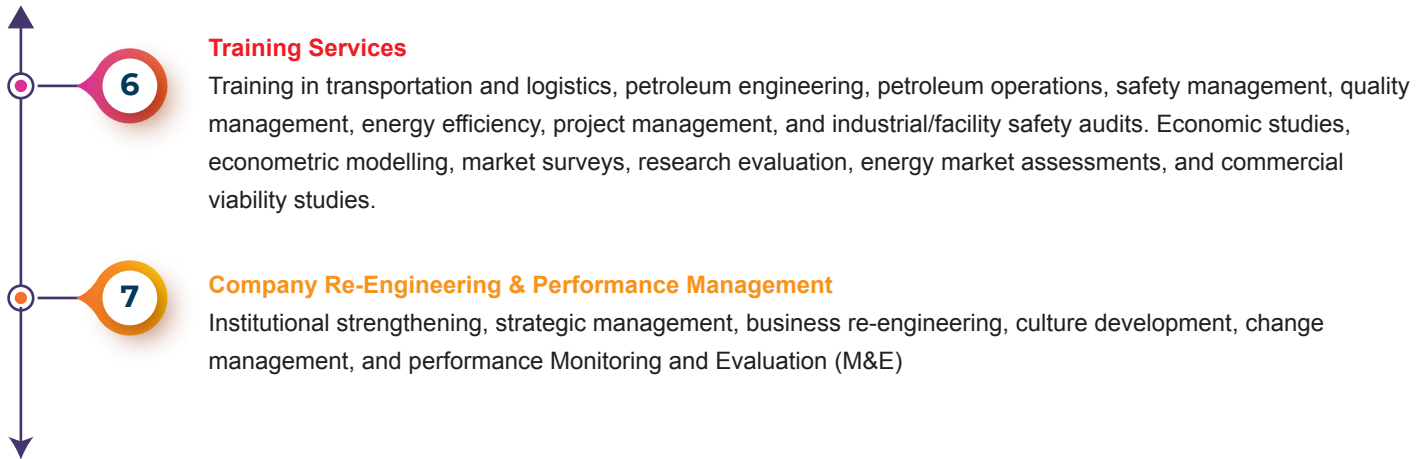

# Core Value Proposition

- Technical depth in petroleum, LPG, transport & logistics, industrial gases, medical gases, and renewable energy systems.
- Project delivery capability covering design, construction supervision, commissioning, and performance review.
- Operational expertise in terminals, depots, service stations, loading systems, storage facilities, road tankers, rail wagons, and stock management.
- Safety and quality orientation supported by petroleum engineering standards, operational excellence practices, and facility audit capability.
- Regional experience across East and Central Africa.
- Multidisciplinary leadership combining engineering, architecture, project management, logistics, business development, and performance management.

# Areas of Specialization

## Organizational Governance and Experience

Pavon is supported by a highly experienced multidisciplinary technical and project management team with deep expertise in the petroleum, oil and gas, LPG, HVAC, bulk storage, industrial facilities, and energy infrastructure sectors.

The organization's leadership experience spans over three decades in technical and engineering management, project development, petroleum infrastructure design, depot and terminal development, facility management, health, safety & environment, logistics, distribution, transport operations, construction supervision, commissioning, and business development.

The team brings strong practical experience in project design, evaluation, planning, budgeting, costing, subcontractor management, facility development, architectural execution, petroleum bulk storage terminals, tank fabrication and erection, equipment sizing, testing, commissioning, and plant maintenance.

Pavon technical governance is strengthened by familiarity with industry standards and systems, including API, ASME and ISO standards, petroleum facility safety systems, fire protection systems, pumps, utility systems, and operational excellence frameworks. This collective experience enables the company to deliver projects with strong technical discipline, safety assurance, quality control, stakeholder coordination, and reliable execution from concept to commissioning.

# Projects Experience

## Heavy Fuel Oil, White Oil & Petroleum Facilities

Core Services	Key Projects / Clients
<p>Design, specification, supervision, rehabilitation, repair, construction, commissioning of storage and dispensing facilities</p>	<p><b>DRC:</b> Congo Petrol Sarlu – Lubumbashi Fuel Storage Depot, Goma Fuel Storage Depot, Uvira Ginki Fuel Storage Depot</p> <p><b>Tanzania:</b> Mwanza Caltex Depot; Moshi Caltex Depot, Oilcom Dar LPG Terminal</p> <p><b>Kenya:</b> Lokichogio Aviation Depot; Maasai Mara Ngerende Jaguar Aviation Depot, Wilson Airport Jaguar Aviation Depot Mombasa &amp; Nairobi Joint Depots; Delmonte (Thika); Konza Oil Depot (Phase I); Africa Gas &amp; Oil Terminal (Mombasa); UNHCR Dadaab &amp; Kakuma fuel installations; Kenya Airways filling station; Kenya Railways bulk lube oil facilities; US Embassy (Embakasi); Coca-Cola/Nairobi Bottlers; Athi River Mining; Safaricom standby gensets; East Africa Storage; HFO emergency power plant fuel systems, Castle Brewing Limited (Thika) Heavy Fuel Oil depot, Kenya Railways Corporation (KRS) rail tankers rehabilitation, Kenya Bureau of Standards road transport standards, petroleum road tankers design, fabrication, operation and maintenance</p> <p><b>Rwanda:</b> Electrogaz Heavy Fuel Oil Depot (Kigali); Cimerwa Heavy Fuel Oil Depot; Engen Fuel Storage Depot (Kigali); SP Rusororo Fuel Storage Depot (Phase II); Rwabuye Fuel Storage Depot</p> <p><b>Uganda:</b> Caltex Kampala Terminal (piping hydraulics);</p>

## Liquid Petroleum Gas (LPG) Infrastructure

Core Services	Key Projects
<p>Petroleum standards development (Kenya Bureau of Standards committee); design, specification, supervision, rehabilitation, revalidation; installation of cylinder filling plants, conveyor systems, tank fire-water sprinkler systems, pipework upgrades, tank access systems; complete LPG supply systems</p>	<ul style="list-style-type: none"> <li>● Tanzania: Oilcom LPG Terminal (Dar es Salaam)</li> <li>● Kenya: Nairobi Joint Depot LPG cylinder filling plant upgrades Mombasa Joint Depot LPG cylinder filling plant upgrades Kentainers Limited LPG storage &amp; supply Saj Ceramics LPG storage &amp; supply Twiga Chemicals LPG storage &amp; supply</li> <li>● Uganda: Jinja Depot (Uganda) LPG cylinder filling plant</li> </ul>

**Cryogenic, Compressed Medical & Industrial Gas Systems**

Core Services	Key Clients
<p>Liquid oxygen, nitrogen &amp; argon storage and transport systems; vacuum insulated tanks; compressed medical oxygen distribution systems; nitrous oxide systems; compressed air &amp; vacuum systems; nitrogen purging; industrial gas distribution systems</p>	<p><b>Industrial:</b> Tanzania Oxygen Limited; BOC Kenya; Mabati Rolling Mills; Unilever East Africa; Kenya Pipeline Company</p> <p><b>Healthcare:</b> Kenyatta National Hospital, Aga Khan Hospitals Gertrude’s Garden Children’s Hospital; Kikuyu PCEA Hospital; Nairobi Hospital; Mater Hospital; Mombasa Hospital; Nakuru War Memorial Hospital</p> <p><b>Others:</b> African Highlands Produce (Kericho)</p>

# Sector Coverage

- Oil and Gas
- Petroleum storage and distribution
- LPG storage and distribution
- Petroleum transport and logistics
- General cargo transport and logistics
- Industrial gases
- Medical gases
- Power generation
- Manufacturing
- Construction
- Hospitals and healthcare institutions
- Public sector agencies
- Humanitarian organizations
- Industrial processing facilities
- Agribusiness and food processing
- Energy-intensive commercial facilities
- Renewable energy systems

## Institutional Strengths

- Highly experienced technical leadership team.
- Strong petroleum and gas infrastructure expertise.
- Transport, distribution and logistics expertise
- Regional project exposure.
- Proven design and construction supervision capability.
- Experience with reputable public and private sector clients.
- Practical operational knowledge of depots, terminals, and storage systems.
- Training and safety audit capability.
- Understanding of regulatory, safety, quality, and engineering requirements.
- Ability to support projects from concept to commissioning.
- Experience with both new facilities and rehabilitation of existing assets.

## Partners and Client Relationships

This profile references experience and relationships connected to recognized institutions and industry brands, including Chevron Corporation, Total Energies, MOGAS, Oilcom, Jaguar Petroleum, Be Energy, Hashi Energy, Rubis Energies, Dalbit Petroleum, Kenya Pipeline Company, Ainushamsi Energy, UNHCR, BOC Kenya, Tanzania Oxygen Ltd, Mabati Rolling Mills, Nairobi Hospital, Kenyatta National Hospital, Aga Khan Hospitas, Petrocity, among other petroleum, industrial, healthcare, and infrastructure clients.

## Why Pavon Limited

Clients engage Pavon Limited because the company combines engineering competence, practical operating experience, project management discipline, and regional energy sector knowledge.

Pavon Limited is particularly suitable for assignments requiring petroleum depot design and rehabilitation, petroleum transport and distribution facilities and equipment, LPG storage facility development, LPG cylinder filling plant design and upgrade, bulk storage terminal design, fuel handling and dispensing systems, industrial and medical gas infrastructure, energy efficiency studies, petroleum logistics advisory, construction supervision, commissioning support, operational readiness planning, safety and quality audits, and training and capacity building.

# Conclusion

Pavon Limited is a specialized energy solutions company with proven competence in petroleum, LPG, renewable energy, industrial gases, medical gases, logistics, project development, engineering design, construction supervision, commissioning, training, and operational support.

With a strong team of experienced professionals and a track record across major energy and infrastructure assignments in East and Central Africa, Pavon Limited is well-positioned to support public institutions, private investors, petroleum marketers, industrial manufacturing, healthcare facilities, development agencies, and infrastructure developers seeking reliable, technically sound, safe, and commercially viable energy solutions.
